

College and Sixth Form Open Events

Many applications must be made by the end of January 2023, so do your research in the autumn term. College and sixth form open events are a great way of doing this.

Important! This information could change. Use school / college websites to confirm the date, time, type of event and whether you need to book. **Do not go to an event without checking.** If there is no date for the school / college you're interested in, check their website.
